## Moving Averages with 123 pattern

### Trend Breakout Scalping

Submit by Dimitri

123 PZ Scalping is a trend breakout scalping system based on famous 1-2-3 pattern filtered by three moving averages. system setup is very simple, trade when the trend (Up or Down) is confirmed by the moving averages and by the other indicators two indicators, therefore for example if the trend is up and the conditions are met only the long signals are traded and vice versa.

You can apply this template also at the renko and range chart.

Time Frame 5 min or higher.

Currency pairs: major, minor and Indices.
